23AID498 – Project Phase 1

Project Diary (Code Review)

Date of meeting with the Guide: 09-10-2026

Work planned for the coming week	• Further development and refinement of the UI. • Implementation and testing of the remaining UI functionalities. • Finalisation of the research paper draft and project documentation. • Preparation of the research paper for conference submission.
Work completed during the previous week	• Conducted a code review with the guide and explained the functionality of each module. • Discussed the project workflow and implementation approach based on the feedback received. • Implemented and integrated the basic UI functionalities into the project.
Pending work	• Completion and testing of the remaining UI functionalities. • Finalisation of the research paper and project documentation. • Submission of the research paper to a suitable conference.

Remarks by the Guide:

Conducted the code review and discussed about the paper
Weekly Performance Rating (0–5) –5
